Gaylord National Resort & Convention Center
Room Chesapeake G — Convention Center's Main Level
National Harbor, MD
- When:** Tues., May 4 from 8:30 to 9:30 a.m. EST

BINGEN, Wash., April 30, 2010 – [Insitu Inc.](http://www.insitu.com) today announced that members from its leadership team will give a press briefing at the Navy League's Sea-Air-Space Exposition in National Harbor, Maryland on Tuesday, May 4th from 8:30 to 9:30 a.m. EST.

The ScanEagle Unmanned Aircraft System (UAS) recently exceeded 300,000 combat flight hours, making it a worldwide leader in the Group 2 class of UAS.

Insitu's unmanned systems protect lives by providing global tactical intelligence, surveillance and reconnaissance (ISR) solutions. Key Insitu technologies, such as our encrypted digital data link, single-channel ground-to-air radio system (SINGARS) communications relay, NanoSAR payload, and electronic fuel-injected/heavy fuel engine will be discussed in the media briefing.

Breakfast and refreshments will be provided.
